C1 according to EF SET

INTERESTS

- computer games
- viola playing
- psychology

ABOUT ME

I have six years of experience as a developer, working mainly on complex client-server application in Java. I like collaborating and sharing knowledge, and I consider software development a team game. I feel responsible for the team, so I am eager to go beyond the field of programming. I am involved in activities such as code review, recruitment processes, onboarding new joiners, and task management.

EXPERIENCE

11.2025 – present

Senior Software Engineer at Visa

Java • Spring • Hibernate • JUnit • Mockito
Maven • Git • Jenkins • DICOM

05.2019 – 10.2025 (5.5 years)

Java Developer at Pixel Technology

Project: Radiological (DICOM) Image Viewer

Java 17 • JavaFX • RxJava • Spring • Hibernate • Liquibase
PostgreSQL • JUnit • Mockito • Maven • Git • DICOM

My tasks:

New functionalities

- Analysis including substantive research, consultation with specialists and clients, UX design
- Design, implementation, and testing of functionality from frontend to backend

Code maintenance

- Analysis and fixing bugs including memory bugs, multithreading, and asynchronous issues
- Code refactoring

Team building and work organization

- Being a recruiter in recruitment processes
- Onboarding new employees
- Code review
- Functionality planning and supervision
- Taking care of a good atmosphere and communication in the team
